Sizes:

1/2" X 8"	5/8" X 8"	3/4" X 8"
1/2" X 10"	5/8" X 10"	3/4" X 10"
1/2" X 12"	5/8" X 12"	3/4" X 12"

Finish: Plain & Hot Dipped Galvanized

FORM BRACE ALIGNER

Form Brace Aligners accurately position forms for walls, columns and beams.

The turnbuckle section is 1" diameter, coil thread which is self-cleaning and gives rapid adjustment. 3-1/2 turns of the turnbuckle gives 2" of adjustment. The approximate overall length is 37" closed, 40" extended with 3" of adjustment.

The nailer plate on the A-27 turnbuckle form aligner has a 15/16" diameter hole that can be used with either a 3/4" or 7/8" diameter steel stake or bolt.
